PROGRAMME OF BA STUDIES

Overview

The study programme extensively covers new trends in archaeological research and archaeology's social function. Our course focuses mostly on Mediterranean archaeology, providing students with the elementary knowledge and practical skills that will enable them to participate in excavations anywhere around the world.

The programme includes a wide range of courses on general topics in archaeology, as well as depth courses on prehistoric and ancient societies of the Near East, Egypt, Greece, Roman Provinces and the Americas. Simultaneously, our course focuses on practical aspects of archaeological methods, field documentation, data acquisition and processing techniques, as well as modern academic practice, or museology, which prepares students for exhibition preparation and cooperation with cultural institutions.

A significant element within the programme is field training: field walking surveys, field excavations, and field documentation.

Ranking QS !

Quacquarelli Symmonds World University Ranking (QS) University of Warsaw was classified very high, on the list of 101-150 within 1117 institutions! <https://www.topuniversities.com>

Important!

- The programme of the study will include courses not visible on the schedule. They are the courses provided by other units of the University. Typically, these courses will include:
 - language courses
 - sports classes
 - general university courses
- Also, students must pass an exam in a foreign language (meaning **not** their native language or an official language of their country of residence) on the B1 level.

How to study at the University of Warsaw

Rules for contacting at the University of Warsaw

- For all contacts with the dean's office, lecturers, etc. you should use e-mail in the domain **@student.uw.edu.pl**
- Information on creating an email account is available here:
<https://it.uw.edu.pl/en/uslugi/UslugiMojaPocztaGmailStudent/>

The student is obliged to read the messages sent to the university account. If necessary, please set up email forwarding all emails

A screenshot of the IT Services University of Warsaw website. The header features the IT Services logo and navigation links: Start, Services, Announcements, Jobs, Contact, and a search bar. The main content area is divided into two columns. The left column, titled 'MY MAIL', lists options: Gmail for students, Gmail for employees, Exchange, and Email domains of University units. The right column contains sections: 'How to create a Gmail account?' with a bullet point about automatic account creation and a link to 'mojekonto.uw.edu.pl'; 'What is the login?' with a bullet point for the student login format; 'Where to log in to my account?' with links to gmail.com and manual configuration; 'Forgotten password reset:' with a link to 'mojekonto.uw.edu.pl'; and 'Changing the password:' with a link to 'myaccount.google.com'. On the right side of the page, there is a large envelope icon, a 'Download PDF file' button, and a section titled 'Available for:' with icons for different user types.

Rules for contacting at the University of Warsaw

- In correspondence, please always use an e-mail placed in the student domain (@student.uw.edu.pl) – this is a confirmation that the e-mail is written by an authorised person.
- In the title of the e-mail, please provide information about what is going on – it will make it easier to find the person who will best deal with the case.
- Please sign your name and album number – this will make it easier to identify the person in the system and speed up the process of replying to the message. Giving a year of study also does not hurt.
- Please do not write separate e-mails on the same topic; it is better to continue the thread already started – if you write a separate e-mail, it will make it difficult for us to find ourselves in the case and extend the waiting time for our response.
- Use appropriate forms of courtesy. If you write to an administration, authorities, or lecturer, it is official correspondence and should present such a style. Similarly, pay attention to how oral statements are formulated – too colloquial statements may tune your interlocutor negatively and not bring the expected effect.

ID card and ticket

- From 2025/2026, the default ID card format for UW students is m-ID requiring the USOS mobile app and mObywatel. This pertains only to students who have a Polish PESEL number.
- The Electronic Student Card is also a library card for BUW, you can code public transport tickets and parking fees on it.

USOSweb – an electronic system for students

- USOSweb is a system that in many cases provides access to information that was formerly available only in the Dean's Office: courses schedule, grades, information about courses and lecturers
- USOSweb in many situations helps students avoid the need to appear in the Dean's Office: allows sending applications to the dean, scholarship applications, fill out surveys, payments, student exchange, etc.
- USOS uses its own terms:
 - Cycle = academic year/semester (2026/2026Z/2026L)
 - Study term = year of study (I year = AR-1)

Token registration

- Registration to some courses requires a virtual currency called tokens. These courses are, as a rule, open to all students at the University of Warsaw, irrespective of their field of study or specialisation.
- On-line registration using tokens is obligatory for all the general university courses [OGUNs], foreign language courses and examinations, PE courses and for courses required to be awarded a teaching qualification. Students must enrol by themselves, and ONLY via the USOS.

Token registration

- The following token types are used by students of Faculty of Archaeology UW:
 - EGZ-JO - foreign language examinations,
 - LEK - foreign language courses,
 - OG - optional university courses open to all,
 - OGP - lectures for foreigners organised by the Centre of Polish Language and Culture for Foreigners "POLONICUM",
 - POL - Polish language courses organised by the Centre of Polish Language and Culture for Foreigners "POLONICUM",
 - WF - PE courses.

Token registration

- After spending issued tokens and more token are needed, some types require additional payments:
 - EGZ-JO - foreign language examinations,
 - LEK - foreign language courses,
 - OG - optional university courses open to all,
 - WF - PE courses
- The details of the registration system should be explained on the webpage

Linkage - committing to a course

- Linking in is the equivalent of the old entry of the object into the paper index

Each student who finishes a cycle of studies and wants to get an entry for the next stage must take care of indicating which subjects they have passed within a given study programme, which of them are to be taken into account when finishing a given cycle, and which are extracurricular subjects.

If a student studies in one program, the connection to the program is added automatically during registration !!!

finishing a given cycle, it is necessary to verify the connections for the cycle

MEETINGS

Linkage

Each completed course (most commonly, failed courses also) gets finally **linked** with one specific study stage. If you don't link the course by yourself, student's office will do it for you (foreign students usually don't have to do it themselves).

On the course list below **you won't find** external courses or any other courses related to individual decisions made in reference to your study program - links to such courses might be edited by student's office only.

To link many courses with a specific study program or stage you should first choose courses and then click "link selected". All selected courses should be from the same cycle.

Linkage

- You can link courses yourself only to the current cycle!
You really have to keep an eye on it – the attached item = the item required to be passed!
- There is no connection = there is no credit!
- Resignation from completing classes is possible only on dates set by the academic calendar!
- Unlinking from the program – by application to the dean!

Representatives and solving up problems

- Students are adults and therefore, deal with matters in person

In the case of the so-called higher necessity, the matter for the student can be settled by the direct family with clear authorisation from the student, provided by the interested party himself.

- Even the immediate family is not given information about the student without his consent (GDPR!)
- Any other person must present a notarial authorisation

Health & insurance

- The health insurance system in Poland is based on principles of equal treatment and access to healthcare services.
- National Health Fund (Narodowy Fundusz Zdrowia; NFZ) is the institution responsible for public medical services in Poland, and it is they who manage public funds for healthcare.
- Health insurance is mandatory for all students for the whole duration of their stay in Poland.
- International students and academics are strongly advised to purchase third-party liability insurance and accident insurance in their home countries.

It is also worth following the University's main website and the Excellence Initiative - Research University website.

DORMITORIES – BASIC INFORMATION

The University of Warsaw has 7 student dormitories, offering more than 2,000 places for students.

They are located in Ochota (DS1, DS2 and DS6), Praga-Południe (DS3), Mokotów (DS5 and DS7), and Śródmieście (DS4).

The monthly cost of a place in a double room ranges from PLN 520 to PLN 1,100, depending on the room type.

The dormitories are equipped and adapted to meet a range of needs, including those of persons with disabilities.

They provide comfortable places to study and live close to the University's campuses.

Social Scholarship and Rector's Scholarship

Who can apply for the Rector's Scholarship?

A student who passed the matura examination in the year of admission to the first year of the programme for which they are applying for the scholarship, and who holds the title of: winner of an international olympiad; or winner of a central-level olympiad referred to in the education system regulations; or finalist of a central-level olympiad referred to in the education system regulations; or

A student who is a medallist in at least a Polish Championship competition in a given sport, as referred to in the sports regulations.

Who can receive a Social Scholarship?

A student whose monthly income per family member does not exceed PLN 2,099.70; and
who is in a difficult financial situation.

WHEN SHOULD YOU TAKE ACTION?

You do not need to worry about missing anything if you remember a few key points during the academic year, when it is worth looking for information about particular forms of support and taking the necessary steps.

Accommodation in dormitories	after receiving a positive admission decision and during the academic year
Rector's Scholarship, Scholarship to Start, Minister's Scholarship	at the beginning of the academic year
